

Airtight
Music and Lyrics by The Tadago Brothers

1st Verse

Two on one, one in the other
I don't know her name she's next to my brother
We can't slow down she's way to fast
So pop another pill if you think you're gonna last
It's the same old thing they won't go down
Less you show a little green and buy another round
You know they bite, and scream, and put up a fight
Till you drop a little x and they get airtight

Chorus

Airtight, she's coming around
Airtight, yeah it's alright
Airtight, she won't make a sound
Airtight, now she's airtight
Airtight, she wears a big frown
Airtight, you know it's quite a sight
Airtight, she's pound for pound
Airtight, 'cause she's airtight
She's airtight now
She's airtight now

2nd Verse

We're done with one, but there's one to smother
I do know her name but don't tell my mother
Do a little deed and don't think twice
It's natural thing or one more vice
The action's good, the boys will grin
One pulls out and two push in
You know you can't see straight she's high as a kite
And you don't know why but you keep it airtight

Repeat Chorus

Let's go airtight, let's go airtight

Solo

3rd Verse

Last one coming, no time to bother
I can't help myself I'm just like my father
One more quickie before I split
Then it's off to bed I swear I quit
Party's over, from one to another
Say goodbye to your part time lover
It's morning now but you live in the night
So catch some zees 'cause you kept it airtight

Repeat Chorus

Keep it airtight
She's airtight
Keep it airtight (one time, two time, three time)
Keep it airtight
Go on airtight
Keep it airtight
